Rural Development Centre (RDC) Nepal is a Non-Governmental Organizations (NGO) established for the implementation of multi-sectoral Programmes, partnering with government and multiple agencies from all around the world that strives for sustainable development, equal rights and justice, disaster management and humanitarian response, policy research etc. through innovation, accountability and transparency without causing any harm to the human society and nature.

Rural Development Centre Nepal

## Rural Development Centre

Rural Development Centre (RDC) Nepal is a non-political and non-profitable organization established in June 2002 with its head office in Rautahat District of Nepal. Since then, RDC is heavily engaged in humanitarian assistance, community development, conservation of natural resources, and environmental protection mainly in the Terai region of Nepal through the dozens of humanitarian and long term development projects reaching out to the children, adolescent, youth, women, landless, urban poor, and people living with disabilities, HIV & AIDS, conflict and disaster survivors from the poor families of historically marginalized Dalits, Muslims, Madheshi and Indigenous communities and other underprivileged groups.

Throughout its journey, it has been recognized by the Government of Nepal, Donor Communities, UN Agencies, many International Relief and Development Agencies for its achievements in transforming the society, for its good governance, inclusive operating structure, result oriented development interventions and humanitarian assistance, which RDC considers its greatest strength to take the lead in the sector across the country.

## Our Vision

Create a society where every individual can enjoy the freedom of life with equal rights, dignity and prosperity without causing any harm to the human being and the environment.

## Our Mission

Our mission is to address emerging development issues and supplement government in solving the problems of unreachable by serving their regular or emergency needs through humanitarian and development interventions including policy work.

## Our Goal

Our Goal is to empower poor, historically marginalized communities and underprivileged societies particularly in poverty stricken, disaster, and conflict hit areas to lift them out from the mercy of poverty and physical threats created from disaster and conflict through an integrated community development intervention and humanitarian assistance combined with capacity

building, policy research, extension and development. It will be achieved through the mobilization of local resources, fostering partnerships and developing local capacity while:

- Implementing integrate community development and environmentally customized interventions with a focus on sustainable development.
- Enabling communities to manage the disaster and climate risks, prepare for their occurrence and respond by providing relief and recovery.
- Support the marginalised, historically excluded, and vulnerable communities to voice their needs and address root causes of poverty
- Working together with the local government while transforming the policy that has impact to poor, marginalized, excluded communities and the environment

## Thematic Areas

- Livelihood and Inclusive Economic Growth
- Water, Sanitation, Hygiene and Health
- Disaster/Climate Risk Management and Humanitarian Assistance
- Education
- Gender and Protection
- Natural Resource Management
- Good Governance and Peace Building

## Strategies:
